Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Not illustrated. 1921 Excerpt: .that of neighbor ing vineyards last year, when tests were made. The main object 1l growing raisins is to grow fruit that will contain the proper degree of sugar and other nutriments--to produce a first class edible, tasty and marketable food. Excessive yields, low in sugar, defeat the very object of raisin growing. The future of the industry depends upon keeping up the quality. The Kearney Association paid on a basis of grades, and this method is embodied in the new contracts of the California Associated Raisin Company. Certainly no grower can afford to sacrifice quality to a temporary advantage of quantity. Loss of Lower Growth Where Thompsons are permitted to form high crowns, the lower growths will certainly die out. In a few years the bearing wood will get weaker and the vine will become unprofitable. Then the only way to force out lower growth will be to cut the vine off near the ground, forcing out new growth. This will cause the loss of a year or two in bearing. Some vines will die under the operation. Also it will inevitably cause the decay of many of the trunks, and the death of the vines. When the situation is viewed as a whole, the vineyardist will see that it is far better to follow methods which will give at the same time a good yield and a longer lived vineyard, simplifying the methods of pruning so that ordinary pruners can understand and perform the...
