# Mathematical Questions and Solutions Volume 58 (Paperback)

Filesize: 8.44 MB

Reviews

Excellent e-book and helpful one. it was writtern really flawlessly and helpful. You will like the way the author compose this pdf.

(Mrs. Lyda Wilkinson Sr.)

MATHEMATICAL QUESTIONS AND SOLUTIONS VOLUME 58 (PAPERBACK)

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1893 Excerpt: .by T. W. K. Clarke; J. C. St. Clair; and others. Let U, VcutinK, L, M. N. Let /? tangent at C cut tangents at A and B in P and Q, and tangent at D cut them at R and S. Proj net the figure so that K, L become the circules; then the conies become circles cutting in M and N. ZRSQ = SDB + SBD = PCA + PAC;.-. zRSQ + RPQ = PCA + PAC + APC = 2 right angles;.-. PQ, RS are concyclic. That is, in the original figure, PQRSKL lie on a conic. Similarly, by projecting K, M into the circulef, PQRSKM are on a conic, and also by projecting K, N into the circules, PQHSK N are on a conic: but these three conies are the same, since they have five points PQRSK common; therefore PQRSKLMN lie on a conic. Prof. Schoute gives the following solution of the problem: --Let c = 0 be the equation of the right line; and a = 0, /? = 0 those of the tang nts in A and B to U; 7 = 0, 5 = 0 those of the tangents in C and D to V. Then the equations of U and V are a$ = (fit5, and 75 = K2f2-The elimination of c gives the equation K2a/3 = 11,75 of a conic passing through the four points common to U and V and the four points common to the...
