Reviews

It is great and fantastic. I actually have read and so i am certain that i am going to going to go through once again yet again in the future. I realized this ebook from my dad and i encouraged this book to find out.

ACCOUNTING FOR MANAGERS

Book Condition: New. Publisher/Verlag: Wiley & Sons | Interpreting Accounting Information for Decision-Making | This updated and revised fourth edition of Accounting for Managers builds on the international success of the previous editions in explaining how accounting is used by non-financial managers. Emphasizing the interpretation rather than the construction of accounting information, Accounting for Managers encourages a critical, rather than an unthinking acceptance of accounting techniques. Whilst immensely valuable for planning, decision-making and control, users of accounting information need to recognize the assumptions behind, and the limitations of particular accounting techniques. As in the previous editions, Accounting for Managers links theory with practical examples and case studies drawn from real business situations across a wide range of manufacturing, retail and service industries. | Preface to the Fourth Edition xvii About the Author xxi Acknowledgements xxii PART I Context of Accounting 1 1 Introduction to Accounting 3 Accounting, accountability and the account 3 Introducing the functions of accounting 5 A short history of accounting 6 The role of financial accounting 7 The role of management accounting 8 Recent developments in accounting 10 The relationship between financial accounting and management accounting 12 A critical perspective 13 Conclusion 15 References 15 Questions 16 2 Accounting and its Relationship to Shareholder Value and Corporate Governance 17 Capital and product markets 17 Shareholder value-based management 18 Shareholder value, strategy and accounting 21 Company regulation and corporate governance 23 The regulation of companies 23 Corporate governance 23 Principles of corporate governance 24 Responsibility of directors 24 Audit 25 Audit committees 25 Stock Exchange Listing Rules 26 Risk management, internal control and accounting 26 A critical perspective 27 Conclusion 28 References 28 Websites 28 Questions 29 3 Recording Financial Transactions and the Principles of Accounting 30 Business events, transactions and the accounting system 30 The double entry: recording transactions 31...
