Designed to address specific areas of difficulty for children, teens and young adults with autism spectrum disorder (ASD), the 46 exercises in this comprehensive program are proven to improve body image, motor coordination, posture, muscular and cardiovascular fitness. The boost to confidence, relationships and general wellbeing resulting from this will be transformative for individuals with ASD and their families. A new edition of a popular program by a well-known autism fitness specialist, this book contains a wealth of innovative exercises to boost body image, motor coordination, posture, muscular and cardiovascular fitness and overall health and wellbeing in children and teens on the autism spectrum, and is ideal for use at home or at school. "The Autism Fitness Handbook greatly demonstrates Coach David's profound understanding of autism and the challenges it causes. The handbook emphasizes the importance of structure and routine, and the use of visual supports and reinforcers, to maximise the learning opportunities for persons with autism. It also explains how exercise can be used to teach concepts, language, social skills, psycho-motor goals, besides achieving motor skills development and body awareness."?Maha Helali, Chairperson and Co-Founder at ADVANCE (The Egyptian Advance Society for Persons with Autism and Other Disabilities)...
