Reviews

The publication is not difficult in go through better to comprehend. I could comprehend everything using this created e publication. Its been designed in an exceptionally easy way in fact it is merely soon after i finished reading through this ebook by which basically transformed me, modify the way i really believe.

Pub Date :2007-08-01 Pages: 235 Publisher: Shandong Title: Analog Electronic Technology (National Vocational integration of teaching information and communications professional generic materials) List Price: 24 yuan Author: Yang now Germany published community: Shandong Science and Technology Publication Date :2007-08-01 ISBN: 9787533147679 words: Page: 235 Revision: Binding: Folio: 16 Weight: Editor's Choice book describes the semiconductor devices. the basic amplifier. sub-pressure common-emitter amplifier common-base amplifier common collector amplifier. multi-stage amplifier. power amplifier. differential amplifier circuit structure. working principle. static analysis and dynamic indicators. feedback amplifier and integrated operational amplifier. the judgment of the type of feedback. negative feedback amplifier the impact of the performance. linear and non-linear applications of integrated operational amplifiers. sine wave and non-sinusoidal oscillator works and commissioning. DC regulated power supply. Summary Table of Contents Chapter semiconductor devices first semiconductor basics section II of semiconductor diode Section III diode circuit analysis method Section IV the semiconductor transistor Section V field-effect transistor Chapter Summary Chapter II of the experiment and training exercises amplifier circuit Section I Section II of the basic amplifier circuit bias circuit of the third quarter to the fourth quarter to enlarge amplification circuit diagram analysis section V. typical amplifier circuit micro-dependent equivalent circuit analysis Analysis Section VI multistage amplifier section VII of amplification section VIII of the frequency characteristics of the circuit FET amplification circuit the Chapter Summary experiments Exercises Chapter power amplifier circuit Section Overview Section II Section III B power amplifier dual power complementary symmetry power amplifier section IV class AB complementary symmetrical power amplifier section V. composite pipe complementary symmetry power amplifier the circuit the Chapter Summary experiments Exercises Chapter differential amplification circuit section I. section II of the current source...
