Reviews

Comprehensive guide! Its this type of very good read through. It is actually written in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

Washington City, 1823. If we should be thought to come forward at a late hour, in noticing the labors of a Society, formed in this country more than seven years ago, for the purpose of adopting some efficient plan of colonizing the free people of color, we trust our negligence will be attributed to any other cause, than a want of deep interest in the objects of the Society, or indifference to the zeal with which these objects have been pursued. The broad foundation on which the schemes of this Society are built, as well as the character of its patrons, raises it to an importance, not to be claimed by any other private association in this country. Its aims have a pointed bearing on our political concerns, and, if successful, cannot fail to operate most favorably on our civil institutions, and our domestic peace and happiness.
