Brand New Book ***** Print on Demand *****.2914 is history s most important political allegory. On the surface, it s just one more science fiction story. There s no point in worrying about UFO invasions or collisions with giant asteroids. We humans are quite capable of destroying our planet all by ourselves, thank you very much. We have already made great progress in this direction by critically damaging our environment in several important ways. They are just the way they are supposed to be, the way they were designed them to be. They were intended to be deadly and they are. The fault lies with us. We humans are a warlike species. Our warlike nature has allowed us to conquer all the other species on this planet...
