CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2012. Hardback. Book Condition: New. New.. 234 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****.This 2002 book expands our understanding of the distinctive policy analysis produced between 1919 and 1950 by economists and other social scientists for four major international organizations: the League of Nations, the International Labor Organization, the Bank for International Settlements, and the United Nations. These practitioners included some of the twentieth century s eminent economists, including Cassel, Haberler, Kalecki, Meade, Morgenstern, Nurkse, Ohlin, Tinbergen, and Viner. Irving Fisher and John Maynard Keynes also influenced the work of these organizations. Topics covered include: the relationship between economics and policy analysis in international organizations; business cycle research; the role and conduct of monetary policy; public investment; trade policy; social and labor economics; international finance; the coordination problem in international macroeconomic policy; full employment economics; and the rich-country-poor-country debate. Normative agendas underlying international political economy are made explicit, and lessons are distilled for today s debates on international economic integration.
